

The Family Room

Your stay in the Family Room

The Spital Lachen offers the option of staying in the family room. This room is set up especially for new mothers and allows them to recover in a comfortable and relaxed environment with their family following the birth of their child.

The family room offers partners the opportunity to take care of mother and child around the clock. Spending the first few days together is important for a healthy parent-child relationship. In order for you to make use of the family room, your partner must also stay overnight to look after you and your child. If your partner does not stay overnight, you will no longer be able to use the family room.

Cost per night for partners, excluding food and drink:

General	Semi-private	Private
CHF 250.–	CHF 125.–	Free

Food and drink will be invoiced separately.

You can register for the family room using the adjacent form. As it is not possible to know the exact date of the birth, the family room cannot be reserved. If the family room is occupied, alternative rooms are available.

Provisional Registration for a Stay in the Family Room

- We accept the conditions mentioned on the adjacent page and would like to provisionally register for a stay in the family room.
